Furkan Doğan

Curriculum vitae · Academic profile

furkandoann@gmail.com

RESEARCH INTERESTS

Microeconomic Theory · Market Design · Matching Theory · Mechanism Design

EDUCATION

Koç University — 2020–2026

Ph.D. in Economics

Dissertation: Three Essays on Allocation Problem with Discrete Resources

Advisor: Özgür Yılmaz

Sabancı University — 2017–2019

M.A. in Economics

Thesis: On random object allocation

Advisor: Ahmet Alkan

Boğaziçi University — 2012–2017

B.A. in Economics

FORTHCOMING PUBLICATIONS

Many-to-many Matching with Cluster-Approximated Spatial Constraints

with Özgür Yılmaz and Ömer Faruk Şahin

The Scandinavian Journal of Economics

Job Market Paper · Forthcoming · Working paper

WORKING PAPERS

The Worst-Rank Frontier in Discrete Resource Allocation: No-Envy, Ordinal Efficiency, and Probabilistic Serial

with Özgür Yılmaz

Submitted · Working paper

WORK IN PROGRESS

Equitable Affirmative Action in School Choice

with Özgür Yılmaz

Is the Weighted Sum a Meritocratic Method? A Mechanism Design Approach to Research Assistant Recruitment in Turkey

SELECTED RESEARCH PROJECTS

TÜBİTAK 1002-A Short-Term R&D Funding Program

Project Coordinator · 2025–2026

Is the Weighted Sum a Meritocratic Method? A Mechanism Design Approach to Research Assistant Recruitment in Turkey

A mechanism-design framework for comparing score aggregation and GPA normalization rules in terms of fairness, robustness, and manipulability.

Developing the framework and evaluating alternative recruitment mechanisms against normative criteria for fair and manipulation-resistant selection.

TÜBİTAK 1001 Research Project

Scholar · 2024–2026

An Allocation of Pharmacy Shifts: A Mechanism Design Approach

Matching theory and mechanism design, combining theoretical analysis of feasible assignments with simulations using real-world scheduling data.

Contributing to the characterization of feasible assignments, the design of implementable mechanisms, and simulation analysis.

CONFERENCE PRESENTATIONS

8th International Workshop on Matching under Preferences

July 2026 · Paris, France

Many-to-many Matching with Cluster-Approximated Spatial Constraints

Poster presentation

14th Warwick Economics PhD Conference

May 2026 · Coventry, United Kingdom

Is the Weighted Sum a Meritocratic Method? A Mechanism Design Approach to Research Assistant Recruitment in Turkey

Conference presentation

Second Spring Meeting of the Turkish Economic Association

May 2026 · Istanbul, Türkiye

Is the Weighted Sum a Meritocratic Method? A Mechanism Design Approach to Research Assistant Recruitment in Turkey

Conference presentation

International Symposium on Measurement, Selection and Placement

October 2024 · Ankara, Türkiye

Equitable Affirmative Action in School Choice

Conference presentation

TEACHING EXPERIENCE

Koç University — 2023–2025

Course Instructor

Math Camp for M.A. and Ph.D. students; High School Economics Camp

Necmettin Erbakan University — 2023–Present

Research and Teaching Assistant

Microeconomics

Istanbul Bilgi University — 2021–2023

Research and Teaching Assistant

Microeconomics; Managerial Economics; Math Camp — LSE Honors Programme

Koç University — 2020–2024

Teaching Assistant

Economic Development; Public Finance; Banking and Regulation; Public Economics

Sabancı University — 2017–2019

Teaching Assistant

Microeconomics; Matching Markets; Games and Strategies; Macroeconomics

Istanbul Sabahattin Zaim University — 2017–2020

Teaching Assistant

Mathematics

HONORS AND SCHOLARSHIPS

Institute Social PhD Research Grant · 2026–Present

TÜBİTAK 2214/A International Research Fellowship · 2023–2024

Awarded for a proposed research visit to Boston College, hosted by Utku Ünver; visit not undertaken.

TÜBİTAK 2211/A National Ph.D. Scholarship · 2020–2024

Koç University Full Ph.D. Scholarship · 2020–2026

Sabancı University Full M.A. Scholarship · 2017–2019

TECHNICAL SKILLS

Python · MATLAB · R · Stata · LaTeX
